Admission for Academic Year 2020/21
Welcome to the Technological and Higher Education Institute of Hong Kong (THEi).

THEi is Hong Kong’s higher education institution with a difference. As a new generation institute with a focus on degree level programmes in the applied arts and sciences, we pride ourselves on the development of graduates with work-ready professional capacities and capabilities in a range of professional fields. As a result of THEi’s applied learning pedagogies and a focus on holistic learning, including local and regional outreach and collaboration projects with international partners, THEi’s graduates are increasingly acknowledged for their innovative approach and entrepreneurial mindsets.

As a member of the Vocational Training Council, THEi’s degree programmes are specifically developed for, and with, local industries and professions to cater for different workforce skilling needs of Hong Kong. A number of our learning area programmes, such as the Bachelor of Horticulture and Landscape Management are unique to THEi.

THEi is only as strong as our achievements, and we take pride in the academic outcomes, applied research excellence and industry-aligned achievements of our students and teaching staff. As an institution, we strive to create learning environments that maximise student success. As such, we are proud of our next generation learning spaces at Chai Wan and Tsing Yi that provide not only real world experiences, but also increasingly, the opportunity to learn in simulated and virtual environments. THEi has also established a number of partnerships with a number of globally renowned universities from across the globe. We believe these relationships further benefit our students through exchanges, study tours and project-based learning. We are committed to providing students with diverse learning opportunities.

In addition to these important areas of academic excellence, we endeavour to produce graduates that are work ready. All of our degree programmes incorporate job placements with relevant businesses to ensure students have the practical training and an understanding of the real-world. This has only been achievable with the co-operation of the more-than 300 companies that offer internships to THEi students. In the workforce, our graduates have been widely commended by employers for their real-world practicalities. Consequently, THEi graduates had a 95% employment rate in 2018.

We warmly invite you to explore your learning and development opportunities with us.

Study a work-ready degree. Be different!

Professor
Christina HONG (PhD)
President of THEi
About THEi

Founded in 2012, the Technological and Higher Education Institute of Hong Kong (THEi) is a member of the Vocational Training Council. With significant industry input, we offer degree programmes which are vocationally and professionally-oriented.

Emphasising a “Work-integrated Learning” (WIL) approach, we aim to develop students into work-ready professionals with skills and knowledge applicable to the real world.

With our strong industry connections in each programme, students have plenty of opportunities to join internship programmes at local or international firms. This real work experience keeps them up to date with the latest industry trends and enables them to be one-step ahead of other degree graduates.

In the Academic Year 2020/21, we provide S.6 students with 21 degree programmes that are vocationally and professionally-oriented. These programmes are developed through close industry collaborations. Many of them are in specialised areas, including: arts and design, architecture and planning, sports therapy, engineering and technology, mass media and communications, Chinese medicinal pharmacy and aircraft engineering.

Our vision

To become a leading-edge institution in higher education and applied research, with recognition for our work-ready graduates, strong industry integration and global orientation.

Our mission

To provide high quality vocational and professional education and impactful research through strong industry collaborations and global outreach;
To be known for our professional, innovative and entrepreneurial approach; and
To foster an institutional culture that inspires through innovation, that is responsive to change and that achieves continuous improvement through mutual trust and teamwork.

**THEi Campuses**

**Chai Wan campus**
*a vibrant learning environment*

THEi has two campuses in separate locations. The main campus in Chai Wan has won numerous building awards for its outstanding green twin-tower design with several distinctive features, including: a large and user-friendly Learning Commons on the first floor that facilitates gatherings and exchanges among students; a network of connecting walkways and escalators that conveys movement and dynamism; a green environment containing vertical gardens and a large green house and an exhibition hall equipped with a 20-meter wide interactive media touch screen which becomes an integral part of campus life at THEi.

**Tsing Yi campus**
*an innovative education hub*

The state-of-the-art facilities at THEi’s Tsing Yi campus as a whole create a comprehensive, dynamic and engaging setting for our students to keep track of the latest science technology trends. Learning in such facilities as the new VTC Building Information Modelling Innovation Hub (BIMiHub) enables our students to stay ahead of the crowd.

**Campus Facilities**

THEi provides the most up-to-date facilities for educating industry professionals of the future. At the Chai Wan campus, specialised teaching facilities include the Chinese and Western Kitchens, Human Performance Laboratory, Photographic Studio and Publicity and Media Room, while at the Tsing Yi campus, the VTC BIMHub and specialist laboratories are in service.
Tommy is now working as an Assistant Art Director in Grey Hong Kong.

After winning Young Kam Fan Award 2018 for his latest campaign titled “100% Island Material”, Tommy and his teammate represented Hong Kong at the Young Lions Competitions 2019 in Cannes of France, which was a world-prestigious competition for young outstanding advertising creatives.

YU Tsun Kit, Anson
Year 4 Student
BA (Hons) in Fashion Design

Having participated in “The Future Cut Fashion Design Competition Asia 2019” held by the Wai Yin Association, Anson scooped the Gold Prize and the Online Popularity Award coming with a scholarship and a 4-month contract at Moiselle Group. At its 37th Anniversary Charity Ball 2019, the Wai Yin Association’s members donned collections by Anson.

NG Long Kwan, Tommy
2018 Graduate
BA (Hons) in Advertising

Tommy is now working as an Assistant Art Director in Grey Hong Kong. After winning Young Kam Fan Award 2018 for his latest campaign titled “100% Island Material”, Tommy and his teammate represented Hong Kong at the Young Lions Competitions 2019 in Cannes of France, which was a world-prestigious competition for young outstanding advertising creatives.
"THEi's Surveying programme is tailored to the needs of employers, including property developers, consultancy firms and contractors. The studio projects are based on real life market practice and the Work-integrated Learning further enriches THEi graduates."

Sr Dr WONG Tsz Choi
Senior Director
Valuation and Advisory Services at CBRE

"Hong Kong Testing, Inspection and Certification (HKTIC) industry plays a crucial role in the global supply chain. We need young talent joining us with a passion to provide innovative and professional services. SGS has partnered with THEi in internship programmes and public workshops, and we found students from THEi are with hands on, practical technical knowledge and skills, who at the same time have the care and curiosity in exploring how they could contribute to society with their professional knowledge. Let’s join us together in revitalising and energising the HKTIC industry."

Christy CHAN
Director of Consumer and Retail
SGS Hong Kong Limited

"THEi’s experienced teaching team enjoys particularly strong industry connections. We are happy to strengthen collaborations on internships and training opportunities to develop talent for our industry."

Darlene BRADY
Director of Food & Beverage Operations
Hong Kong Disneyland
Work-integrated Learning Approach

Opportunities for THEi students to connect with experienced professionals and senior executives to enhance their career development in addition to building professional competencies and networks are offered through various mentorship schemes. Aiming at producing work-ready degree graduates, THEi underscores the importance of practical training and its connection with classroom theories and workplace applications. Through our strong network comprising of more than hundreds of local and regional industry partners, we train up our students with Work-integrated Learning (WIL) approach, facilitating knowledge and skill application in real work settings and developing students’ competencies for future employment. All of our graduates have interned in the industry prior to their graduation.

CHAN Cheuk Yan

2018 Graduate
BSocSc (Hons) in Sports and Recreation Management

The SRM’s Work-integrated Learning programme enabled me to gain valuable experience in the sports therapy industry. Not only did it expand my clinical knowledge, but also improved my communication skills. After graduation, I was employed by Metro Sports Physiotherapy as a sports therapist. I can apply all knowledge and skills acquired from my internship.

CHENG Tsz Ching, Crystal

Year 4 Student of BA (Hons) in Landscape Architecture

My Landscape Architecture internship at National Parks Board (Singapore) was highly rewarding. I was given ample chances to draw based on projects of different natures, it was personally fulfilling to have gained a deeper insight into the symbiotic relationship between the government, developers and the private sector. I was also inspired by the world-class living environment that encapsulates biodiversity and recreational values.

KWONG Wing Hei

2018 Graduate
BEng (Hons) in Civil Engineering

I am now working at YWL Engineering where I have the opportunity to take part in the airport expansion project, which involves complex structural and piling designs for the underground Automated People Mover (APM) tunnel and the Excavation and Lateral Support (ELS) system. My study and training at THEi, with a focus on work-readiness, equipped me with essential and up-to-date industry knowledge and technical know-how to take up these challenges.
Overseas Exchanges

THEi offers a range of overseas exchange opportunities to students, to equip them with global awareness and understanding of other cultures. These include partnerships with various universities around the world. Australia, Germany, Japan, Korea, the United Kingdom and the United States are some of the destinations that enable opportunities for student exchanges, study tours and project-based learning.

LEUNG Ho Lam, Jasmine

2019 Graduand
BA (Hons) in Fashion Design

I joined the THEi-organised UK study trip to Kingston University. It was a thought-provoking experience for me. It broadened my horizons, allowing me to experience the British lifestyle and culture in the UK. This summer programme benefitted me a lot and gave me an opportunity to think over my future.

LO Hong Lam, Julianna

2019 Graduand
BA (Hons) in Hotel Operations Management

My exchange journey in Germany was an unforgettable experience which enriched my global perspective and personal development. Also, I had the chance to travel to other European countries where I learned more about lifestyles and food cultures from different countries, which may benefit my future career in the hospitality industry.

FAN Weijian, Kurt

2019 Graduand
BA (Hons) in Product Design

I travelled to Australia for an exchange programme, which expanded my design knowledge. In addition, it was a great experience for me to study in an overseas design institute where I met some local students and we shared our design experience with each other. I could feel others’ enthusiasm and our sharing built up my confidence in design.

International Collaboration

Global Exchange Program by Swinburne University of Technology and THEi

Seven Product Design students from THEi participated in a 10-day workshop at Swinburne University of Technology (Swinburne University) in July 2019. Entitled “Global Design Program”, the workshop was developed to create a collaborative learning experience for both Swinburne and THEi students.

Working together on a unique Melbourne Tramways project supported by the Melbourne City Council’s industrial design team, students designed a Melbourne tram stop for 2030. This Melbourne-based project was conducted through field research, trend forecasting, ideations and modular structural studies with an emphasis on sustainability and human-centred design.

This program offered a valuable experience to THEi students through workshops, visits and cultural exchange activities, providing them with a practical knowledge of design and international perspectives so that they can better understand design considerations for an ageing population, or for a target group of certain disabled people.
Scholarship and Financial Aids

THEi offers vocational and professional-oriented degree programmes with a focus on professional knowledge and real-world practice. It is committed to developing the leadership skills and generic competencies of students through diversified learning experiences. THEi scholarship schemes recognise the all-round performance of our students by providing sponsorship to students’ study plans or activities, including overseas exchange programmes and study tours.

Entrance Scholarship (Year 1) awardee
Year 2 Student of BA (Hons) in Public Relations and Management

LAW Yan, Lyan

I am humbled to be a recipient of the Entrance Scholarship offered by THEi. It encourages me to work harder and be more committed to my studies, enabling me to build a successful public relations career in the near future.

Entrance Scholarship (Year 1) awardee
Year 2 Student of BSocSc (Hons) in Sports and Recreation Management

CHEUNG Chun Lok, Bob

I am honoured to be one of the awardees. Not only does this scholarship enhance my self-confidence, but also helps me reduce my financial burdens, allowing me to strike a balance between study and work.

Career Prospects

Career Prospects
Graduates are employed as assistant engineers, graduate engineers, civil, structural and geotechnical engineers, project co-ordinators, site agents and project managers in various public and private sectors, such as Government Departments, utility companies, consultancy and construction companies, as well as any other related suppliers and manufacturers.

Professional Recognition
The Programme has been accredited by The Hong Kong Institution of Engineers (HKIE).

Career Prospects
Graduates may be employed in both public and private sectors: working in the Architectural Services Department, Buildings Department, Lands Department, Rating & Valuation Department, Housing Department or other equivalent bodies; and for planning and development consultants, property developers, international and local professional consultancy firms, building and civil engineering contractors, property management companies, asset management firms, property investment and financial consultants, real estate agencies, etc.

Professional Recognition
This 4-year full-time programme has obtained provisional approval from The Hong Kong Institute of Surveyors (HKIS) (applicable to Year-1 entry). The programme has also achieved professional accreditation from the Chartered Institute of Housing (CIH) for its Quantity Surveying and Property & Facility Management Stream. More details of the accreditations are listed on THEi website at www.thei.edu.hk.

Career Prospects
Graduates can be employed in both public and private sectors, such as Leisure and Cultural Services Department, Buildings Department, private or residential clubhouses, local to work at the Leisure and Cultural Services Department, fitness centres, sports facilities, resorts, hotels, school sports teams, and also for the sports rehabilitation clinics. Graduates from the Sports Therapy Specialisation are eligible to become a sports coach, strength and conditioning specialist, and for planning and development consultants, property developers, international and local planning and development consultants, property developers, international and local professional recognition agencies, etc.

Professional Recognition
The Sports Therapy specialisation of this programme is accredited by The Society of Sports Therapists in the United Kingdom.
BSc (Hons) in Multimedia Technology and Innovation
創新及多媒體科技 (榮譽) 理學士

Career Prospects
Graduates can be employed as multimedia programmers, multimedia designers, game designers, user-experience designers and new media artists in the creative and digital entertainment industry. With more experience, they can advance to such managerial positions as project managers, technical directors and creative directors.

Self-financing Degree Programme
自資學士學位課程

Career Prospects
Graduates may be employed as software developers, network engineers, game software developers or mobile and web application programmers, and may take up challenging careers like project managers, game software technical officers, inter-networking administrators and other managerial positions.

The programmes information are subject to change. Please refer to the THEi website at www.thei.edu.hk for the latest programme information.

Self-financing Degree Programmes

Government Annual Subsidy up to HK$32,100 for Self-financing Degree Programmes

Under the Non-means-tested Subsidy Scheme for Self-financing Undergraduate Studies in Hong Kong (NMTSS), an annual subsidy up to HK$32,100 (for 2020/21 academic year) will be provided to Hong Kong students who have attained (a) “3322” in HKDSE when they are enrolled in eligible self-financing first-year-first-degree programmes; or (b) relevant sub-degree qualifications when they are enrolled in eligible self-financing top-up degree programmes.

Notes:
• A student’s eligibility for NMTSS and the annual subsidy amount for each academic year are subject to the Education Bureau’s approval.
• The subsidy is tenable for the normal duration of the programmes concerned at THEi.
• For details, please visit http://www.cspe.edu.hk/nmtss.

Entrance Scholarship

THEi has set up an “Entrance Scholarship Scheme” in recognition of the all-round performance of outstanding Hong Kong Diploma of Secondary Education (HKDSE) or the International Baccalaureate Diploma Programme (IBDP) students who enroll in designated self-financing degree programmes. The scheme offers scholarships with an award amount up to full scholarship covering four consecutive years of studies per award. For details, please visit THEi’s website (www.thei.edu.hk/student-services/scholarships-awards).

Please refer to the THEi website at www.thei.edu.hk for more details.

Course Duration

4 years, total 8 semesters (Full-time).
