2026-27

PROGRAMME HIGHLIGHTS

- Develops students' professional knowledge in human structure, movements, kinesiology, and exercise science, and competencies in the demonstration and implementation of contemporary practical skills in sports therapy
- Nurtures students' analytical and clinical reasoning skills in injury identification, sports rehabilitation, and exercise training programme development, and the evidence-based applications of modalities in managing and preventing sports injuries, as well as solving sports therapy-related problems in both clinical and on-field scenarios.
- Focuses on broadening students' horizons through the learning and applications of smart technologies, such as using wearable sensors and artificial intelligence in testing, monitoring, and decision making, and the placement opportunities in both clinical settings and various sports events or competitions.

Career Prospects

Graduate sports therapists can register at The Society of Sports Therapists, UK as Sports Therapists and become full members* and also register as members at the Sports Therapists Association of Hong Kong (STAoHK). Potential employers include sports therapy or physiotherapy and rehabilitation clinics, National Sports Associations, The Hong Kong Sports Institute Limited, sports clubs/teams, schools, and professional or celebrity athletes. Numerous of them also work as self-employed therapists or own sports therapy-related businesses, whereas many others further their studies in post-graduate studies, such as a Master's degree in relevant areas at local or overseas universities.

**Graduates from the original Sports and Recreation Management programme in AY2025/2026 are confirmed, while the recognition of graduates in this new Sports Therapy programme from AY2026/2027 is to be confirmed.*

BBS, JP**

Executive Manager, Racing Development
Board/Headmistress, Apprentice Jockeys' School
The Hong Kong Jockey Club

Industry Endorsement

"I have been involved in this degree programme from its initial accreditation to the implementation. The programme provides both theoretical knowledge and hands-on practical experience, which makes it very unique from other degree programmes. In Hong Kong, we need more coaches with relevant degree training. Likewise, there has been a huge demand in the sports management area. The sports therapy specialisation in this degree programme is the very first in Hong Kong. Sports Therapists will be able to provide on-field service to athletes for injury treatments and fitness training. I fully support this degree programme and foresee its positive impact to Hong Kong."

Simon Willis

Men's Head Coach
Cricket Hong Kong, China

Industry Endorsement

"THEi sports programme has been a key part of Cricket Hong Kong High Performance Team providing strength and conditioning and sports therapy service to help our national men's and women's teams to perform on international stage."

Max Yeung (2016 Graduate)

Sports Therapist,
Co-founder of Movewell Sports Therapy Center

Graduate Endorsement

"Studying in THEi SRM programme Sports Therapy not only built up my solid knowledge and practical skills in evaluating, managing, and rehabilitating various sports injuries, but the applications of technologies have broadened my horizons while the work-integrated learning provided me with important global internship opportunities and helped in constructing my successful career path and business."
