Founded in 2012, the **Technological and Higher Education Institute of Hong Kong (THEi)**, a member of the Vocational Training Council (VTC), aspires to be a leading applied sciences and technology institution acknowledged for work-ready graduates, strong industry integration and global orientation, to meet industry needs. THEi offers more than 20 professional "Applied Science-Oriented" undergraduate and postgraduate degree programmes across seven academic areas: Product and Fashion Designs, Sports and International Events Management, Digital Construction and Building Services, Horticulture, Arboriculture and Landscape Management, Chinese Medicine and Food Science, Hotel Management and Culinary Arts and Technology and Digital Technology and Innovative Business. The programmes integrate theoretical knowledge with practical applications and cover industries with growth potential worldwide and in the Asia-Pacific region, particularly in the Chinese Mainland and Hong Kong, ensuring that students can effectively apply what they learn.

Our undergraduate and postgraduate degree programmes are accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications and by the relevant professional bodies where appropriate. THEi prepares Work Ready, Future Ready graduates through our strong applied degree and professional education programmes. The institute also collaborates closely with industry partners to provide students with essential platforms for their development. All undergraduate degree programmes offer 100% work-integrated learning (WIL) and engage students in active learning pedagogies including a strong focus on project-based learning involving real-world problem-solving with and for local industries and professions.

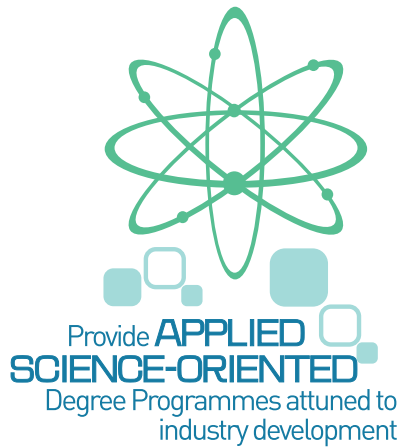

THEi has two campuses; the main campus in Chai Wan, Hong Kong, provides a vibrant learning environment for students. The Chai Wan Campus has been awarded “The Leadership in Sustainable Design and Performance Award – Institutional” of the Asia Pacific Leadership in Green Building Awards (The Awards) presented by the World Green Building Council (WorldGBC) in 2020.

State-of-the-art facilities, including the Environment and Conservation Fund Hydrogen Energy Education and Talent Development Centre and the Wu Jieh Yee Arboriculture Education and Research Centre, were established in 2025. These centres create a comprehensive, dynamic, and engaging environment for our students, enabling them to stay up to date with the latest trends in science and technology.

Student Accommodations

There are two student residential halls in VTC which are located in Pokfulam Road, Hong Kong Island and Tsing Yi Island, New Territories. The halls provide around 1,000 residence places for students.

Through hall life, you can experience group living and learn independence. Meeting new friends from different disciplines and countries, you can establish interpersonal networks and expand your cross-cultural horizons. Residents can participate in various activities held by the hall, which enriches the campus life experience and promotes the whole person development.

Associate Member of the
**ALLIANCE OF
UNIVERSITIES OF
APPLIED SCIENCES** in Hong Kong

There are very few culinary schools in Hong Kong, and I found that THEi offered exactly what I was looking for in a bachelor's degree in culinary arts. I was also excited about the opportunity to learn from experienced experts in the field.

THEi opened many doors for me to work overseas. I was selected to participate in the Overseas Culinary Summer Internship Programme at prestigious hotels in Japan for two consecutive years. These experiences provided me with up-to-date industry knowledge and valuable management skills, enabling me to pursue a wide range of job opportunities both in Hong Kong and abroad.

Bachelor of Arts (Honours) in
Culinary Arts and Management Graduate

All THEi's bachelor's degree programmes are offered through a credit-based module accumulation system. For graduation, Year 1 Entry students are required to complete at least 120 to 132 credits, including Programme Core Modules, Work-integrated Learning Module(s), General Education (GE) Core Modules and GE Elective Modules.

Graduates with a local Higher Diploma or equivalent sub-degree qualifications / studies in the relevant streams may be admitted into Year 2 or Year 3 of the degree programme. The normal study period lasts 3 years for Year 2 Entry (students are required to complete at least 90 to 99 credits) and 2 years for Year 3 Entry (students are required to complete at least 60 to 66 credits), depending on students' discretion on the specified number of credits taken per semester. Subject to the students' academic qualifications attained, the additional core modules may be assigned (with additional charge).

Offer Announcement

2

- ▶ Offer announcement is normally no later than the end of August.

Registration and Orientation

3

- ▶ Students are required to pay the first installment of the tuition fee, student service fee and caution money to accept the offer.
- ▶ Admitted students are required to register and attend the orientation activities in late August.

International Students Support Service

THEi provides comprehensive support for international students, including, pre-admission programme consultation services, assistance in student visa applications, provision of pre-arrival and Hong Kong life information, new student orientation sessions and welcome activities, language support, academic and career guidance and assistance in helping new students adapt to life and learning in Hong Kong.

Insurance

Every non-local student admitted (except Exchange Programme students) will be insured under a basic health, accident and repatriation insurance. Students may also purchase additional insurance at their own expense for a larger amount of insurance coverage at their discretion.

Student Visa

- All international students require a visa/entry permit to study in the Hong Kong Special Administrative Region (HKSAR) unless he/she has the right of abode or right to land in the city.
- THEi will assist students with their student visa application. It normally takes around 6-8 weeks for the Hong Kong Immigration Department to process the visa application upon receipt of all required documents.
- Students can work in Hong Kong with the student visa and the No Objection Letter.

Arrangement after Graduation

Under the current HKSAR regulation, international students awarded a bachelor's degree qualification by THEi may apply to stay in Hong Kong for 24 months after graduation without other stay conditions. During this period, they are permitted to freely engage in employment or pursue further studies.
